Request description

Under the EPA's GHGRP program, there is a verification provision (<https://www.epa.gov/ghgreporting/ghgrp-methodology-and-verification>) for GHG reports. I would like to know, by year: 1. How many GHGRP reports were verified in pre-submittal verification checks; 2. How many GHGRP reports were verified in post-submittal verification checks; 3. Of the GHGRP reports verified pre-submittal, how many were flagged for inconsistencies; 4. Of the GHGRP reports verified post-submittal, how many were flagged for inconsistencies; 5. Of the GHGRP reports flagged post-submittal, how many reports were corrected and resubmitted, and how many were not changed (ie, the facility provided a response explaining why there are no errors). Thank you.

Request category ID

educational

Fee waiver

yes

I request a waiver of all fees for this request.

Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. I am a graduate researcher conducting a study on GHG accounting which I hope will contribute to a better public understanding of GHG mitigation measures and which may help inform policymaking. As such, I am affiliated with an educational or noncommercial scientific institution. This request is made for a scholarly or scientific purpose and not for commercial use.
